## Zara's Day on Planet Kepler

Name: \_\_\_\_\_ Date: \_\_\_\_\_

---

### The Story

#### Zara's Special Day

Zara is twelve years old and lives on planet Kepler with her family. She has a mother, a father, and a little brother named Pip. Zara is a student at Kepler Space School.

Every day, Zara wakes up at 7:00 AM. She brushes her teeth with her sonic toothbrush and eats breakfast with her family. Her favorite breakfast is moon cereal with purple milk. After breakfast, she walks to school with her friends. Classes start at 9:00 AM.

Yesterday was different! Zara woke up late at 8:30 AM because her alarm clock broke. She didn't have time for breakfast, so her mother gave her a space sandwich. She ran to school and arrived just in time. In the afternoon, her class visited the Crystal Gardens on their school trip. Zara saw beautiful rainbow flowers and flying butterflies with four wings. She took many photos with her camera.

After school, Zara played with Pip in their garden. They flew their small spaceship around the house three times. In the evening, the family watched a movie about Earth. Zara went to bed happy and tired.

Zara loves her life on Kepler, but she dreams about visiting Earth one day.
